

The Opportunity to Invest in Safer Chemicals

GreenScreen™ Training

Tuesday, May 8, 2012 8:00 AM—5:30 PM

NSF International 789 N. Dixboro Road
Ann Arbor, MI 48105

Registration: <http://greenscreen-annarbor.eventbrite.com>

Lunch included in price

PRICE: Business-\$99 NGO/Gov/Academia-\$49

The GreenScreen™ for Safer Chemicals is a comparative chemical screening method developed by Clean Production Action to help move our society toward the use of greener and safer chemicals. This in-depth experiential workshop is intended to educate designers and decision-makers on how to implement the GreenScreen™ to compare and select safer chemical for use in products and manufacturing processes

This day-long training will be of particular interest to business experts in supply chain management, materials selection, procurement, product and process design, environmental health and safety, sustainability, and regulatory affairs who need to select safer chemicals for their products.

For more information please contact Clean Production Action at:

email: greenscreen@cleanproduction.org

web site: <http://www.cleanproduction.org/Greenscreen.php>

Speakers Include:

Lauren Heine, Clean Production Action **Helen Holder**, Hewlett-Packard **Teresa McGrath**, NSF International
Emma Lavoie, US EPA Design for Environment **Alex Stone**, Washington State Department of Ecology

Margaret Whittaker, Chris Schlosser & Kristin Schaefer, ToxServices

Ann Blake, Environmental & Public Health Consulting **Shari Franjevic**, Transform to Green
