

# National Pollution Prevention Roundtable 2025 Safer Chemistry Challenge Program

## Fall Webinar Series

The webinar series provides attendees with an opportunity to learn about chemical alternatives and safer chemistry initiatives. Presenters throughout the series will represent industry, nonprofit, academia, and technical assistance providers. Topics presented will include safer chemistry innovations and case studies, tools and resources, policy initiatives, and supply chain opportunities.

September 20 2 EDT	<b>Engaging Your Supply Chain</b> Presenter: Steve Walker (World 50) <b>Registration:</b> <a href="https://attendee.gotowebinar.com/register/5401185188863712000">https://attendee.gotowebinar.com/register/5401185188863712000</a>
October 18 2 EDT	<b>Staples' Commitment to Transitioning to Safer Chemicals</b> Presenter: Roger McFadden (Staples) <b>Registration:</b> <a href="https://attendee.gotowebinar.com/register/6573785752584866560">https://attendee.gotowebinar.com/register/6573785752584866560</a>
November 1 2 EDT	<b>Using the GreenScreen™ to Identify Preferred Materials in HP's Global Supply Chain</b> Presenters: Lauren Heine (Cleaner Production Action) and Cory Robertson (Hewlett-Packard) <b>Registration:</b> <a href="https://attendee.gotowebinar.com/register/3362707123641864448">https://attendee.gotowebinar.com/register/3362707123641864448</a>
December 6 2 EDT	<b>The Quick Chemical Assessment Tool (QCAT): Hazard Assessment Tool for Small and Medium Size Businesses</b> Presenter: Alex Stone (State of Washington) <b>Registration:</b> <a href="https://attendee.gotowebinar.com/register/1968506588412612096">https://attendee.gotowebinar.com/register/1968506588412612096</a>
